

# GREEN GROWTH

## and the SDGs

A PATHWAY TO A SUSTAINABLE FUTURE

Green growth means fostering economic development while safeguarding the environment on which our well-being relies.

Green growth is central to achieving the SDGs, particularly Goal 8 and target 8.4.

## GOAL 8

Promote sustained, inclusive, and sustainable economic growth, full and productive employment and decent work for all.

### Target 8.4

Ensure global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation.
